

Deployment Matrix

VER. Z47 // FACILITATOR

Mission Control

Phase 1: The Shield

Legal & Executive

Phase 2: The Mechanics

IT & Security

Phase 3: The Soul

HR & Sustainability

Phase 4: The Exam

Audit Defense

Facilitator Note:

Do not distribute the full "Grand Opus" to Level 1 stakeholders. Use the sub-modules to avoid "Sci-Fi Rejection."

Mission Control

This matrix is designed to help you deploy the **AI-ESG Integrated Strategist (AEIS)** curriculum. The "Grand Opus" is dense and philosophical. To succeed, you must de-bundle it and sell specific value propositions to specific departments.

Strategy

Infiltrate the organization by solving immediate pain points (Liability, Security, Audit Fatigue) before introducing the deeper philosophical cycles (Pullman/Kubrick).

Warning

Avoid "Sci-Fi Shock." Do not lead with Asimov or Philip Pullman when talking to the General Counsel. Use the "Translation Layers" provided in this tool.

Deployment Sequence

Phase 1

The Shield (Legal)

Establish the "Liability Sponge" argument. Stop humans from signing things they can't verify.

Phase 2

The Mechanics (IT)

Connect ESG to Accounts Payable. Secure the "Breach Protocol."

Phase 3

The Soul (Culture)

Address "Daemon Health" and "Protocol Droids." Fix the internal culture of silence.
